## Summary

---

Versatile full-stack developer with over 5 years+ of experience building robust, scalable web applications using modern JavaScript frameworks. Skilled in both front-end and back-end development with deep expertise in Angular, React, Node.js, and RESTful APIs. Proven leader with a strong record of driving high-quality software delivery, improving user experience, and mentoring teams in Agile environments. Committed to clean code, scalable architecture, and continuous learning.

## Technical Skills

---

- **Front-end:** Angular, React, Redux, Tailwind CSS, RxJS, NgRx, NgXS, Angular Material, Bootstrap
- **Back-end:** Node.js, Express.js, NestJS
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Dev Tools & Platforms:** Git, Docker, RESTful APIs, CI/CD, Agile/Scrum
- **Languages:** JavaScript, TypeScript, Java, Python

## Work Experience

---

### SoBiapi

Currently working on the **maintenance and continuous development** of the [Upskilling Academy](#) [🔗](#), a **B2B solution** designed for the **French market** and fully compliant with **Qualiopi** certification standards (*Marque de certification qualité des prestataires de formation*). The platform serves **multiple corporate clients** across France and supports **thousands of active users**.

- Built on a **modular, multi-tenant**, and **GDPR-compliant architecture**.
- Offers features including training program management, learner progress tracking, certification workflows, and analytics dashboards.
- Involved in performance optimization, refactoring, and the development of new client-specific features.
- Collaborating with stakeholders to adapt modules based on evolving requirements and client feedback.

### Development Team Lead

*Remote — Jul 2022 – Present*

- Led and mentored a team of developers, overseeing project planning and delivery.
- Conducted code reviews, ensured coding standards, and improved Git workflows.
- Provided technical consulting and managed client communications.

- Actively participated in Agile Scrum ceremonies including sprint planning, standups, and retrospectives.
- Collaborated with cross-functional teams in a remote setup to deliver production-ready features.

## **Senior Full-Stack Developer**

*Remote — Mar 2025 – Present*

- Developed and maintained backend services using Node.js, Express.js, and MongoDB.
- Built and integrated APIs for scalable client-facing applications.
- Wrote unit and integration tests to guarantee system reliability.
- Applied SQL expertise and full-stack strategies to ensure system robustness.

## **Lead Front-End Developer**

*Remote — Jan 2022 – Jul 2022*

- Managed the front-end team, setting development standards and timelines.
- Collaborated closely with designers and backend teams for seamless UI/UX integration.
- Ensured cross-browser compatibility and responsive design implementation using Angular.

## **Frontend Developer**

*Remote — Nov 2021 – Jun 2025*

- Built user interfaces using Angular, Angular Material, and React.
- Worked on TypeScript-heavy components, forms, and client-side validations.
- Maintained and updated legacy code while gradually migrating to modern architecture.

## **Inside 360 Algeria**

### **Full-Stack Developer**

*Algiers, Algeria — Aug 2021 – Nov 2021*

- Build full-stack application using modern frameworks (Angular, Node.js).
- Design RESTful APIs and manage robust databases (MongoDB, PostgreSQL).

## **ITexc Agency**

### **Full-Stack Developer**

*Algiers, Algeria — Jan 2019 – Mar 2021*

- Developed scalable, full-stack web applications from concept to deployment.
- Collaborated with designers and back-end developers to deliver user-centric solutions.
- Led API development and integration efforts across several client projects.

## Education

---

### University of Science and Technology Houari Boumediene

Bachelor's Degree in Computer Science

### Higher School of Computer Science (ESI)

Preparatory Classes in Computer Science

## Certifications

---

- Angular Intermediate (HackerRank)
- Angular Certification (TestDome)
- JavaScript Essential Training (LinkedIn)
- Python Certification (Kaggle)
- JavaScript Algorithms and Data Structures (freeCodeCamp)
- Responsive Web Design (freeCodeCamp)
- Cisco Networking and Security Fundamentals (ICT-Towers)

## Languages

---

- **Arabic:** Native
- **English:** Professional Proficiency
- **French:** Professional Proficiency

## Projects

---

- **Workshop Management Platform:** Scalable garage management system with online booking capabilities.
- **COVID-19 Tracing App:** React Native app for contact tracing and case monitoring.
- **Safariatcom:** Travel booking platform offering tourism services and agency management tools.
- **Shortly:** Custom domain-compatible URL shortener with analytics and user dashboard.
- **FullHouseDZ / Babashop:** E-commerce platforms tailored for Algerian small businesses.
- **Brave Spirit E-learning:** Mental health e-learning platform with structured course content and secure access.

## Key Achievements

---

- Successfully led a team of developers to deliver a workshop management platform, improving operational efficiency for clients.
- Developed a COVID-19 contact tracing app that contributed to public health efforts during the pandemic.
- Built multiple e-commerce platforms, enabling Algerian businesses to expand their online presence.

## Additional Information

---

- Strong problem-solving skills with a focus on delivering scalable and maintainable solutions.
- Excellent communication and teamwork abilities, with experience in Agile/Scrum environments.
- Passionate about continuous learning and staying updated with the latest technologies.
- Dedicated athlete and sports enthusiast — actively practice bodybuilding as a personal passion and lifestyle.
